Portable and Stationary Engines

Best from our large equipment for sale. List of machines and prices sent on request. Write to the nearest office of the American Association of Engineers and Architects, 1000 Broadway, New York, N. Y.

Woodbury Engine

[illegible]

A black and white photograph of a weathered wooden structure, possibly a fence or wall. On the left, a sign is visible with the text "POWELL'S FINE ARTS" and "11 COLUMBIA UNIVERSITY AVENUE". The structure appears to be made of horizontal wooden planks, some of which are missing or damaged, revealing a darker interior or another layer. The overall scene is dark and grainy, with a high-contrast, almost abstract quality.
